Summary of reasons for revocation – LA FONDATION ENFANT SECOURS

[Translation] An audit of the organization revealed serious non-compliance issues. More precisely, the audit revealed that the organization allocated the majority of its resources to financial and administrative expenses, rather than to charitable activities. Furthermore, this approach resulted in awarding **excessive personal benefits**. Our audit also exposed the fact that the organization failed to file an accurate information return and to respect their disbursement quotas. For all these reasons collectively and individually, the Canada Revenue Agency is of the opinion that the charity's registration should be revoked.
