Hello Vivian,

Please find [here](#) datasets containing the information you requested. We understand that you are seeking these datasets for the 2022 fiscal period. However, given that the Form T3010, Registered Charity Information Return, database for the 2022 fiscal period is not yet complete due to some annual information returns still being processed or outstanding, we are providing you with the datasets for both 2021 and 2022. We are therefore providing four separate datasets.

The documents with "Top 100" in the file name contain a list of those registered charities that reported the top-100 largest amounts of total tax-receipted gifts at line 4500 of Form T3010. Those datasets then provide the requested information for each of those charities, including any amount they reported at line 580, Total amount of non-cash tax-receipted gifts. The documents with "All Charities" in the file name contain a list of all charities that reported an amount at one of, or both, lines 4500 and 580. Those documents also provide standard tombstone information for each of those charities.

All of the data is current as of August 31, 2023. In addition to the datasets, we have included separate spreadsheets that contain relevant indexes of the various codes and abbreviations found within the datasets.

As with all datasets provided by the Canada Revenue Agency (CRA), please note that this data may have been manually entered by the CRA, and that it has not necessarily been verified for accuracy or completeness. Statistics and data are produced or compiled by the CRA for the sole purpose of providing the public with direct access to public information about registered charities in Canada. The CRA is not responsible for the use and manipulation by any persons of this information.

Thank you,

Sylvie Branch

Subject: Non-cash, tax-receipted donations reported for fiscal 2022

Hello,

As before, I would like to request information regarding the tax-receipted donations reported by registered charities. Specifically, I would like to request a digital spreadsheet containing the following information for each of the registered charities that reported the top 100 total amounts of tax-receipted donations:

- Name of the registered charity
- Registration #
- Total amount of tax-receipted gifts (Line 4500)
- Total amount of non-cash tax-receipted gifts (Line 580 of Schedule 5)
- Designation
- Province
- Postal code

In summary, what I am looking for is a list of the top 100 registered charities that reported non-cash gifts in 2022, and some limited data about each of the charities on this list.

I would also like an update on two figures for 2022:

- Total tax-receipted donations (sum reported on Line 4500 by all registered charities)
- Total non-cash, tax-receipted donations (sum reported on Line 580, Schedule 5) by all charities

If you could please provide this during the course of this week, that would be very much appreciated.

Sincerely,
Vivian
