The Applicant is making application for registration as a charitable organization.

It seeks to provide for the advancement of education by providing needed laboratory, computer, and other equipment and facilities required in the teaching of various subjects, as well as text and reference books and miscellaneous school supplies to accredited learning institutions so that the needs of the students and teachers can better be met. It will also carry on activities to develop courses and curriculum and resource materials for schools with an emphasis on the full development of a student's physical, moral and intellectual capacities.

In many cases it may be necessary for a student to live away from home in order to attend school. The Applicant would also provide for needy students to be able to attend boarding schools in order that they can benefit by obtaining a higher calibre education.

It also will provide scholarships and bursaries to students to be awarded on the basis of either, or both, financial need and scholastic achievements. The Applicant will not restrict its scholarships to attending a particular school. The selection committee will be appointed by the Board of Directors and will be composed of people knowledgeable in the field of education. Recipients must be approved by the majority of the committee.

Many things affect a student's ability to learn such as good nutrition and health care. So the Applicant also hopes to also be able provide humanitarian assistance by way of meals, clothing and other supplies in areas where poverty or disaster have created poor living conditions in order to generally improve the quality of life of the needy and increase the ability of the students to benefit from the educational opportunities provided to them. If it is able to provide the assistance directly, it will do so using volunteers whenever possible. If however, the Applicant is unable to provide the programs directly, it will do so through an agent under Agency Agreement.
