As mentioned in the May 4, 2017, [News Release](#), Minister Lebouthillier, in response to the charities' Consultation Panel report, has asked the CRA to suspend all action in relation to the remaining audits and objections which were part of the political activities audit program. With respect to the completed audits, in 7 cases, the CRA has proposed to revoke the charity's registered status.

This suspension will be in effect until the Government officially responds to the Panel's report. Additional information will be made public as it becomes available.
