Impact Account

Free to open and use

Charitable Impact doesn't charge sign-up or transaction fees for Impact Accounts, and no fees are charged on the balance in your account.

Processing fees from banks and credit card companies

Banks and credit card companies charge charities, including Charitable Impact, a fee to process donations. If you use a credit card to donate, the fee is 2.8%. We recover this fee when you send a gift to charity from your Impact Account.

More money can get to charity when you give with Charitable Impact

Our credit card processing fee is lower when compared to most charities because we process higher volumes of donations. This means that more money can get to charities when you give from your Impact Account.

Processing fees don't affect your tax receipt

You'll receive a tax receipt for 100% of the amount you add to your Impact Account.

How can I see how much the processing fee is for my gift?

You'll see the specific processing fee charged by banks and credit card companies when you send a gift to charity from your Impact Account.

Charitable Investment Account fees

Charitable Impact offers the lowest cost of any advisory-managed donor-advised fund in Canada. Fees do not impact the tax receipt, which is determined by the fair market value of the assets at the time of donation.

Account balance	Annual fee
First \$1,000,000	0.50%
Above first \$1,000,000	0.25%

Our fee is collected quarterly and is based on the average of the opening and closing market value of the Charitable Investment Account balance each quarter. Our fee is charged in addition to any fees charged directly by financial advisors.
