Pembina Institute

Website: www.pembina.org

Amount: USD 479,678

Purpose:

To elevate awareness of policies and targets for energy efficiency and renewable energy in Canadian national and provincial energy plans that will lead to: the regulation of large greenhouse gas emitters; the transformation of all energy-using sectors to high efficiency; the establishment of a major renewable energy infrastructure; and investment in low-carbon economies in developing countries.

Programme: Environment	Sub-programme: Climate Change North America	Country: United States
Year Awarded: 2007	Start Date: 1-Sep-07	End Date: 31-Aug-09
	Duration: 24 months

Pembina Institute

Website: www.pembina.org

Amount: USD 484,106

Purpose:

To ensure that emerging opportunities and interest in renewable energy and energy efficiency solutions are not thwarted by opposing forces; to develop and advocate for a suite of complementary sustainable transportation policies in key cities and provinces that reduce demand for fossil fuels and create cleaner and smarter transportation systems; and to equip US policy makers, media and environmental organisations with accurate and unbiased information about Canada's oil sands operations and climate policy.

Programme:	Sub-programme:	Country:	
Environment	Climate Change North America	Canada	
Year Awarded:	Start Date:	End Date:	Duration:
2010	1-Sep-10	31-Aug-12	24 months
